## 2017 Automotive Electronics and Accessories

SEIKOSANGYO CO.,LTD. has been established since 1953 and is renowned as a leading manufacturer of automotive accessories for aftermarket in Japan. We offer Japan designed wide range accessory products with unique useful functionality, stylish design and high quality like smartphone holders, USB power sockets and so on. We are ready to meet your requests to supply your channel with our brand or OEM basis.

### EB-188 Cup Holder

This cup holder features a high-quality design with authentic-feel leatherette and gray stitching. Includes a tilt adjuster to support mounting to angled air vents. Includes three types of plastic clips for wide compatibility.

20pcs/Small Carton  
40pcs/Large Carton

### EB-191 Rear Tray

This rear seat tray and drink holder attaches easily to a headrest and features a conveniently adjustable design. Slides in left or right, and folds down when not in use. Installs easily by passing the headrest rods through the tray mount. The drink holder is lined with a stylish, chrome ring.

10pcs/Small Carton  
20pcs/Large Carton

### EC-159 Sunglasses Holder

This magnetized sunglass holder enables quick attachment and removal of sunglasses. It uses a wide design to securely hold sunglasses in place while stored. Features a sleek, chrome-plated and carbon-fiber-patterned design.

20pcs/Small Carton  
80pcs/Large Carton

### EC-195 Multi Pocket with USB Port

This convenient multipurpose storage area fits between seats and provides a place to mount a smartphone. It includes a bin with dividers and built-in USB ports for an all-in-one storage solution. The USB port is able to auto-detect iOS and Android OS devices and provide optimal charging conditions for the detected device.

10pcs/Small Carton  
20pcs/Large Carton

### EC-197 Phone Holder

Simply press your phone into the mount, and the mount's grips latch on to the device. It is designed to accommodate a wide variety of devices, including those in wallet type or slimline cases, as well as devices not kept in cases.

20pcs/Small Carton  
40pcs/Large Carton

## EE-107 Trunk Organizer

These cargo organizer blocks provide rugged support for items stored in your vehicle's trunk or cargo area, keeping them from falling or sliding around.

Two blocks are included per set, and they can be used together to pin particularly unstable items in place. The blocks stack together to save space when not in use.

10pcs/Small Carton  
40pcs/Large Carton

## EH-179 Tissue Box Case

This tissue holder easily attaches to a vehicle headrest. It uses a thick, high-quality synthetic leather to blend in with your vehicle's interior.

Installs in seconds, simply by passing the headrest rods through the metal rings of the holder.

10pcs/Large Carton

## EM-145 Sockets with USB Ports

This vehicle charging adapter uses a corded design and provides two 12V power sockets and two 5V / 2.4A USB ports (for a maximum of 4.8A over USB). The USB ports are reversible and able to automatically detect and provide optimal charging conditions for connected devices.

USB output/5V DC 2.4A(total of 4.8A for 2 ports)

20pcs/Small Carton  
40pcs/Large Carton

## EM-146 Sockets with USB Ports & Indicator

This vehicle charging adapter provides two 12V power sockets and two USB ports featuring indicator lights that show the charging state of connected USB devices. Uses a corded design. The USB ports are reversible and able to automatically detect and provide optimal charging conditions for connected devices.

USB output/5V DC 2.4A(total of 4.8A for 2 ports)

20pcs/Small Carton  
40pcs/Large Carton

## EW-69 Assisted Mirror

This auxiliary side-view mirror attaches underneath a vehicle's existing side mirror so as not to impede upon the original mirror's field of view. Provides visuals of parking lines, parking blocks, ditches, etc. when parking in reverse.

Provides a wide, curved mirror (radius 300mm, 11.8inch) for optimal visibility.

20pcs/Small Carton  
80pcs/Large Carton

## EW-139 Protector

This bumper guard features a thick design and is composed of soft material. It provides effective protection against scratches for parts of your vehicle that can be easily scraped during normal driving, such as bumpers or body kit components.

20pcs/Small Carton  
40pcs/Large Carton
